

SPECIFICATIONS

Cutting Capacity:	15" (38 cm)
Accumulating Capacity:	250 sq in.
Width:	50" (127 cm)
Weight:	1750 lbs (794 kg)
Saw Disc:	45" dia (114 cm)
Accumulator Cylinder:	2.5 x 10" (6 x 25 cm)
Grabber Cylinder:	3 x 10" (8 x 25 cm)
Teeth:	10 Quadco
Standard grabber arm:	1
Standard accumulator arm:	1 with dual fingers

Universal quick attach mounts for skid steers

HYDRAULICS

Flow Requirements: High flow 30 - 50 gpm
Pressure Requirements: 3,000 - 3,500 psi

The bunching saw is perfect for the small to medium size drive-to-tree carriers in thinnings. The large throat opening and accumulating pocket allows several small trees or one large diameter tree. The design allows optimum visibility, performance and improving productivity.

OPTIONS:

- * Conversion kit from quick attach to excavator
- * Excavator mount with mounting rails

Mounting rails

Universal quick attach plate for skid steers. Comes standard with feed hoses, quick couplers and wire harness.

1" high tensile strength saw disc with 10 Quadco teeth

Custom mounts
